VENTOZELO
DOURO · PORTUGAL

COLHEITA Commemorative Rel.

PORTO

This is the first Port Wine from Quinta de Ventozelo which we produced when we acquired the Quinta in 2014. Ten years later and to celebrate this important milestone, we present a limited edition of this 2014 Colheita Port – – a wine marked by the passage of time and the thickness of the wood.

Year	2014
Denomination	DOP Porto
Oenologist	José Manuel Sousa Soares
Grape Varieties	Traditional red grape varities from the Douro region such as Touriga Franca, Tinta Amarela and Tinta Barroca.
Harvest Year	2014 was a cool year, with humid winter and spring that led to early maturation. We witnessed record rainfall during the month of September, with levels that exceeded records of the last 80 years, leading clear differences in quality between plots harvested before and after the rain.
Viticulture	Coming from vineyards of red varieties from the Quinta, predominantly: Touriga Franca in unilateral cordon, West-North exposure, between 120 and 140m altitude; Tinta Barroca on bilateral cord, North-Northeast exposure, between 220 and 250m altitude; Tinta Amarela, on unilateral cordon, West-Southwest exposure, between 350 and 400m altitude.
Harvest	Manual harvest, during the month of September, before the rains, with careful selection of bunches.
Vinificacation | Ageing	Traditional Port wine making method stopping the fermentation at the right point with the addition of wine spirit. Wine from a single harvest, with prolonged ageing in wood. Ageing in casks extends until the moment of bottling (date indicated on the back label).
Tasting	With a rich brick tone and red nuances, this Colheita presents great complexity on the nose, with aromas of sultanas, dried figs and dates. A subtle touch of menthol and eucalyptus comes through, which extends and evolves on the palate. With great structure and freshness, it finished, long, intense and velvety.
Analysis	Alcohol: 20 % Total Acidity: 4,5 g/l (Tartaric Acid) pH: 3,53 Total Sugars: 101 g/l
Document revised	October 2024
