QUINTA DE
VENTOZELO

DOURO · PORTUGAL

GOUVEIO

WHITE

Year	2025
Denomination	DOC Douro
Oenology	José Manuel Sousa Soares
Grape Varieties	Gouveio
Harvest Year	The 2025 viticulture year at Quinta de Ventozelo was marked by extreme climatic contrasts, with a warm, dry winter and a spring with significant rainfall, particularly in March and April. This was followed by an extremely hot and dry summer with three prolonged heatwaves, making 2025 one of the highest temperature years on record in the region. The harvest eventually took place in cooler, more stable weather, which helped to ensure high-quality grapes. Despite the challenging weather conditions and the intensity of the year, Ventozelo's terroir proved its ability to preserve the freshness and elegance of the wines here produced.
Viticulture	Grapes sourced from a single vineyard, planted on single-row terraces and trained using double Guyot.
Harvest	Manual harvest during the month of August.
Vinification	After a cluster selection in the vineyard, they were then chilled, destemmed and pressed in an inert environment at the entrance to the winery. The subsequent cold settling and fermentation took place at a temperature of 16°C.
Bottling	2026
Tasting	Bright yellow in colour, it reveals an expressive scent, dominated by fresh floral and citrus notes. On the palate, it displays good body and pronounced acidity, developing into a long, structured finish.
Serving	The fresh character of this white wine pairs perfectly with light dishes of white meat, grilled fish, and seafood. It should be served between 10 and 12°C.
Analysis	Alcohol: 13% Total Acidity: 4,9 g/l (Tartaric Acid) pH: 3,38 Residual Sugars: < 0,6 g/l

Document revised july 2026
